Profile

An undergraduate student pursuing a BSc in Applied Data Science Communication, with a strong interest in Business Analysis and data analysis. Experienced in extracting meaningful insights from data and passionate about applying analytical and statistical techniques to solve real-world problems.

Education

General Sir John Kotelawala Defence University <i>Bachelor of Science in Applied Data Science Communication</i>	2024- 2027
Relevant Coursework: Advanced SQL and Cloud database, Data mining, Fundamental of mathematics and Statistics, Fundamental of R, Python, Economics, Data science Applications and Artificial intelligence, Corpus analysis, Data visualization and storytelling	
Rippon Girls College,Galle <i>GCE Advanced Level in Commerce Stream</i>	2020-2022

Skills

Technical Skills SQL, Python, Power BI, Excel, PowerPoint, R Programming, NLP, MachineLearning
Soft Skills Teamwork, Communication, Problem-solving

Projects

Manchester Energy Efficiency Insights Dashboard SQL, Power BI, Excel 	2025
- Developed an interactive Power BI dashboard analyzing Manchester EPC data using SQL Server and advanced DAX. - Evaluated energy efficiency, emissions, and energy consumption trends to support data-driven sustainability insights.	
COVID-19 Impact on Sri Lanka's Tourism Industry SQL, Power BI, Excel 	2025
Designed an advanced Power BI dashboard analyzing Sri Lanka's tourism performance (2018–2025), integrating multi-source datasets (tourist arrivals and tourism revenue) to evaluate pre-, during-, and post-COVID recovery patterns for strategic tourism analysis.	
Tracking Progress Toward SDG 2: Zero Hunger (2015–2025) SQL, Power BI, Excel 	2025
- Analyzed global food security using UN SDG datasets and dashboards. - Applied SQL, star-schema modeling, and DAX to identify disparities and policy priorities.	
PolicySense AI – Strategic Intelligence System Python, NLP, Regex, LLM 	2026
- Developed an AI-powered system using Gemini 1.5 Flash LLM to automate policy summarization and metadata extraction. - Built an NLP pipeline for preprocessing and context-aware chatbot integration.	
Greater London Property Price Monitor Dashboard SQL, Power BI, Excel 	2024
- Analyzed UK property transaction data (2020–2023) using SQL Server and Power BI to explore price trends, property types, and regional distributions. - Built interactive dashboards revealing seasonal sales patterns and market value variations to support real estate decision-making.	

Certifications

Python for Data Science, AI & Development | IBM (Coursera)

Developed strong Python programming skills and applications in data science and AI.

Introduction to Data Analytics | IBM (Coursera)

Understanding the fundamentals and key steps in the analytics process.

Clubs & Extracurricular Activities

AI and Data Science Club – Membership Circle

2025 – 2026

- Active member participating in workshops, seminars, and discussions on data analysis, machine learning, and emerging AI technologies.
